

As Tripledemic Pressure Increases, Find Workforce Relief with Medical Solutions

The ongoing tripledemic of RSV, COVID-19, and the seasonal flu has placed many facilities in crisis mode – straining hospital capacity, exacerbating labor shortages, and applying pressure to health systems across the nation.

Cumulative hospitalization rate is **10x higher** than it has been in over a decade.¹

The flu outbreak has pushed hospital bed use rate to **80%**.¹

76% of pediatric beds are in use overall, a **10% INCREASE** from recent years.²

10% of hospitals nationwide are reporting **CRITICAL STAFF SHORTAGES**.²
